“One, Two, Three, Four hours float by and I can’t sleep, haunted by the dream. If I close my eyes for long enough, the muted colours beneath my eyelids congregate and form violet rocks and orange sticks. One, two, three, four hours go by and I can't sleep.”

It is with great pleasure to present to you our latest exhibition titled "Haunted By The Dream" a solo exhibition by Suhaylah H. The exhibition presents a set of landscapes formed by dreamlike recollections. From sleepless nights and forest walks to an old painting reinventing itself to recall something even older, the works ruminate on the experiences of nature and light in these strange pockets of time.
